

GROWTH

Grow YOUR Company's revenues - at no extra cost!

Developing **high margin, competitive products and services** is the key to **growing revenues** and profitability and a **secure future**.

Newly launched **grant support, funding and tax incentives**, will enable Companies to develop world class products at no extra cost.

To learn how **your Company** can **benefit** and what **funding is available** to support **business growth.....**

Join us on Wednesday 29 February 2012

At the seminar you will learn how your Company can **grow revenue at more than 25% a year** and how to **source and develop winning new products**. We will explain how you can develop **better products for half the cost in half the time**.

We will show you where to **find business grants and funding** for product and business development and how to **reclaim twice your development costs in tax relief**.

Spaces are limited. Lunch and refreshments will be provided.

Don't miss this **opportunity to increase your Company's revenues**. Reserve your place now!
